Brief Statement of  Eligibility Statement Dec 2016

NOTE - These criteria are not representative of FULL requirements to this Program – revision pending

ACGME Eligibility

The ACGME Vascular Surgery Program Requirements are specific to prerequisite education and training. Because we are operating as an Independent Program, applicants must first meet one of the following criteria to be considered for entry into our program (the following is excerpted from ACGME Vascular Surgery Requirements)

Vascular Surgery education in the independent form must be 24 months in length [Int.C.2.]. All required clinical education for entry into ACGME-accredited programs must be completed in an ACGME-accredited residency program, or in an RCPSC-accredited or CFPC accredited residency program located in Canada [III.A.2.]. Fellowships must receive verification of each entering fellow's level of competency in the required field using ACGME or CanMEDS Milestones assessments from the core residency program [III.A.2.a.]. To be eligible for appointment to an independent program, residents must have completed an ACGME-accredited program in surgery [IIIA.2.d.].

Fellowship program applications must also provide their program with documentation of a passing score on USMLE Step 3 or an equivalent examination that qualifies them for medical licensure (i.e., Comprehensive Medical Licensing Examination-COMLEX). (ACGME approved program)

NOTE – Full vascular surgery program requirements are posted to the ACGME website at www.acgme.org.
